Albert Stratford George Canning

Deviate Beau Lotto,2017-04-27 World-renowned neuroscientist Beau Lotto reveals the truths of human perception and devises a cognitive toolkit for how to succeed in a world of uncertainty. Perception is the foundation of human experience, but few of us understand how our own perception works. By revealing the startling truths about the brain and perception, Beau Lotto shows that the next big innovation is not a new technology: it is a new way of seeing. In his first major book, Beau Lotto draws on over a decade of pioneering research to show how our brains play tricks on us. With an innovative combination of case studies and optical- and perception-illusion exercises, DEVIATE will revolutionise the way you see the world. With this new understanding of how the brain works and its perceptive trickery, we can apply these insights to every aspect of life and work. DEVIATE is not just an engaging look into the neuroscience of thought, behaviour and creativity: it is a call to action, enlisting readers in their own journey of self-discovery.

A Lorton Prison Project Carolyn Williams, 2013-11-11 This story captures the insight of a bright, intuitively smart young man who grew up in the low-income housing projects of Southeast, Washington, D.C. our nation's capital city. His name was Jimmy Black Blango, or better known as JB. He lived in the Barry Farms Housing projects at the height of a glorified drug market, in the midst of a culture of the celebrated thug life, gang violence, and mob-style crime. Aside from all that, it was a known fact that gang bangers pledged allegiance to serving time in jail. Even JB got caught up in an operation clean sweep on the streets of Washington, D.C., and was sent down to Lorton to serve his time. From there, his status on the streets of Washington, D.C., were upgraded to include street credits (i.e., the status of lieutenant) for serving a stench at what was once called the most notorious prison on the East Coast, the Lorton Correctional Complex. Now, that the prison was mandated by federal law to shut down, the criminal element on the outside decided to bring their drug enterprise on the inside. This in an effort to establish networks that reached beyond the District, and extended to all points targeted south. Yet due to the pending closure of the Lorton Complex and the greed amongst thieves, backstabbing gangbangers, cold-blooded killers, malicious cutthroat staffers, etc., caused the whole scam to blow up. At the end of the day, a nefarious culmination of unsavory conduct caused many elements of the Lorton Complex to suffer its unfortunate demise.

Natural Design: a new theory of evolution Matthew Turner,2010-05-14 This book painstakingly explains why Darwin's theory of Natural Selection is an inadequate and only pseudo-scientific explanation for evolution. A properly scientific theory of evolution is then outlined. The question of how to fit such an extreme theory into a human world view concludes the discussion.
